# What is Data Structure?

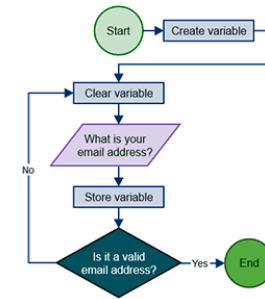

- For a well-structured and high-performance program

# Programming Languages

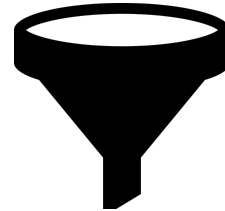

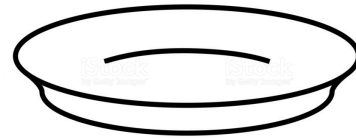

# Data Structure

# Algorithms

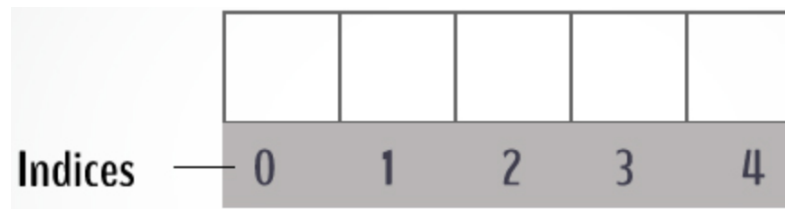

# Data Structure

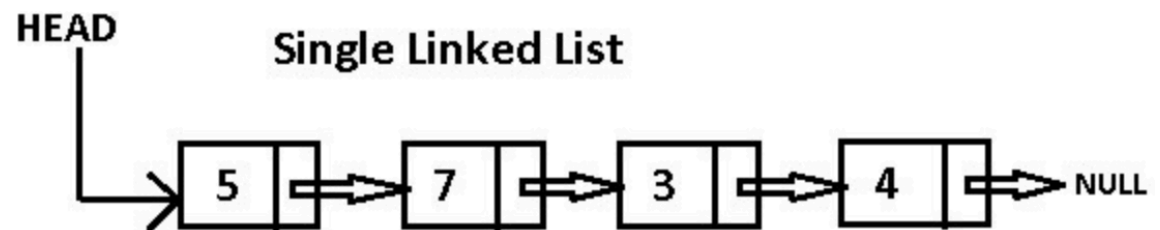

# Data Structure

- Insertion(a)

**Array**

**List**

# What Will We Learn?

- Types of structures
  - Array, List, Stack, Queue, Tree, Search Tree ...
- Operator/Methods
  - Insert, Delete, Create, Add, ...
- Basic algorithms
  - Sort, Search, Traverse, ...

# Next Time

- Python programming languages
